### Medical evidence in child sexual abuse cases | Request PDF

7 Child sexual abuse SUMMARY The dynamics of child sexual abuse differ from those of adult sexual abuse. In particular, children rarely disclose sexual abuse immediately after the event. Moreover, disclosure tends to be a process rather than a single episode and is often initiated following a physical complaint or a change in behaviour.

### 7 Child sexual abuse - WHO

Child sexual abuse, also called child molestation, is a form of child abuse in which an adult or older adolescent uses a child for sexual stimulation. Forms of child sexual abuse include engaging in sexual activities with a child (whether by asking or pressuring, or by other means), indecent exposure (of the genitals, female nipples, etc.), child grooming, and child sexual exploitation ...
