Justifying Intellectual Property

In contrast to much of the work in this area, however, Justifying Intellectual Property does not build its case solely on economic or utilitarian grounds. Instead, the author attempts to make the ethical case for IP, arguing that these rights run deeper and are more fundamental than the conventional view of IP rights as policy tools to spur innovation.

Amazon.com: Justifying Intellectual Property ...

In a wide-ranging and ambitious analysis, Robert P. Merges establishes a sophisticated rationale for the most vital form of modern property: IP rights. His insightful new book answers the many critics who contend that these rights are inefficient, unfair, and theoretically incoherent.

Justifying Intellectual Property | Robert P. Merges | download

Justifying Intellectual Property Rights Justifying Intellectual Property Rights 19 February, 2018 Three main justifications offered for intellectual property rights (IPRs) are: reward for labour (John Locke), personality-based (GWF Hegel) and incentive-oriented (Jeremy Bentham/Utilitarian) theories.

Justifying Intellectual Property Rights - Flora IP

JUSTIFYING INTELLECTUAL PROPERTY Within Stoicism, four things were said to be incorporeal: time, space, the void and lekta(the meaning of words or sentences).20That the Stoics should have had the category at all is at first sight surprising, given that theirs was a philosophy of uncompromising materialism.

Justifying Intellectual Property: Back to the Beginning

This chapter talks about several justifications for the endowment of intellectual property rights. These justifications are variously focused upon the activities of the creator of an intangible asset, its would-be user, and the community in which the creator operates. It explains that none of these justifications offers a single over-arching theory of intellectual property law.

Justification of Intellectual Property - Oxford Scholarship

As more and more of society's valuable assets come to be incor-poreal and intangible, this function will more and more come to be served by the species of property we call IP. So in constructing a viable theory of property, it makes sense to start with IP, or at the very least to include it.
