Such institutional preparation is often viewed by teachers and those who deliver such instruction as inadequate (e.g., Brindle et al., 2016; Myers et al., 2016), potentially undercutting teachers' own personal efforts to become good writing teachers. Consequently, changing classroom writing practices involves more than changing teachers.

4. Religion, Spirituality, and Mental Health. Approximately 80% of research on R/S and health involves studies on mental health. One would expect stronger relationships between R/S and mental health since R/S involvement consists of psychological, social, and behavioral aspects that are more "proximally" related to mental health than to physical health.
